NOURISHING HEALTHY LIFESTYLE

The importance of nature and how much it affects human life is under-rated.

There have been many researches that have proven that exposure to nature can reduce complications in the body and can improve health. The very existence of humans is based on what we get from nature. To lead a healthy life, we all require Mineralised Alkaline drinking water, clean air filled with oxygen and Healthy nutritional food. Preserving nature would mean to nourish healthy life. Our actions and interactions with Mother Nature is what facilitate healthy living. And Mother Nature survives when it gets healthy water. Healthy water, thus, is the most essential source that neither humans nor nature can live without. Pure and healthy water is the basis on which everything revolves.

What is Ionized Water?

1. By electrolyzing the clean tap water, which is filtered and sterilized to reach the drinking water standard, we can get IONIZED WATER.
2. There are two kinds of ionized water: Alkaline Water and Acidic Water.
3. Alkaline ionized water has many health benefits and Acidic ionized water has good performance in Sterilization

What Is Hydrogen Water?

Hydrogen water or hydrogen-rich (Also called hydrogen Enriched water) Than normal water (H_2O), it contains dissolved hydrogen gas (H_2). For Example, Have carbonated water or beverages (Soda Pop), containing dissolved carbon dioxide gas (CO_2), or Oxygenated water, which contains dissolved oxygen gas (O_2). Similarly, you can have water in which there dissolved hydrogen gas.

Doesn't water already contain hydrogen because water is H_2O ?

A water molecule consists of two hydrogen atoms, which are chemically bonded to an oxygen atom. This difference from the hydrogen gas molecule (H_2), which is simply two hydrogen atoms bonded to each other.

For Example

We need oxygen (O_2) to live, so why can't we just get our oxygen from drinking water, H_2O ? This is because oxygen is chemically bound to the water molecule. We need available oxygen gas (O_2) which is not bound to other atoms or molecules. In the same way, for dissolved hydrogen gas (H_2) to benefit us, it must be in an unbound, and therefore available the therapeutic benefits.

What are the Benefits of Hydrogen Rich, Alkaline Water?

Drinking hydrogen rich, antioxidant, alkaline water has many benefits like fighting acid reflux (acidity), boost immune system, better hydration, help losing weight, better digestion & many more.

BEAUTY WATER

pH 4.0 to 5.0
(not suitable for drinking)

What is Normal pH of facial skin

The pH of your skin at its natural slightly acidic level of 5.5, it controls the growth of acne-causing bacteria and helps slow signs of aging like lines, wrinkles and saggy skin. Ionized acidic water acts as an all-natural toner, aftershave and makeup remover and can replace many expensive skin care and anti-acne products in your home. Add some to a small spray bottle to keep in your medicine cabinet. The acidic water should hold its strength for about three months. You may notice firmer skin, fewer lines, and reduced appearance of pores. Also effective against insect bites, burns, poison ivy, and other rashes.

ACIDIC WATER IS ESPECIALLY EFFECTIVE IN TONING THE SKIN

It helps to refresh the skin after a hot bath or shower and also works to close the pores after washing your face.

FOR BOILING PASTA & MAKING BATTERS FOR FRYING

Noodles and pasta will take on a brilliant shine and improved texture as a result of boiling in acidic water. Acidic water will also enhance the crispy texture of fried foods.

AS A CLEANER

Mild acidic water can be used to clean places which are not very dirty.
